BRAIN POLICE

“electric fungus”

~In Brief:

BP’s music is driven by magnificent force and great personal charisma. It all began, like most bands do, back in 1998 when **Jón Björn Ríkarsson, Gunnlaugur Lárússon, and Hörur Stefánsson** got together and started jamming some seriously heavy tunes. Very quickly the boys realized they had something special going on. They snagged a name from the **Frank Zappa** catalog and began honing their skills by assaulting the local touring circuit.

~Another Press Quote that says it all:

“Pure, ’90s-flavored stoner rock in all its pristine, untainted glory.” - All Music Guide

~ Key Selling Points:

- First time available outside of Iceland.
- Limited edition reissue (1000 copies).
- Brain Police have been getting rave reviews this year as a result of their album Beyond the Wasteland, released last winter.
