TUMMLER

“early man”

“Massive guitar-wielding”... “Flowing percussion”... “Great big bad-ass rock and roll”... **Tummler** brings sounds from the far reaches of the musical spectrum together to create pure and heavy rock and roll. Sound so unique it’s been described as heavy acid fuzz rock meets stoner rock meets metal meets good ol’ rock and roll. **Tummler** has been compared to a wide range of bands such as Black Sabbath, Iron Butterfly, and other late 60’s and early 70’s greats. Four rock enthusiasts came together to meet one common goal: to create rock so heavy it will knock you on your ass... And this is how it all started

Tummler was born in June of 1996 in Champaign, Illinois. In September of 1999 **Tummler** recorded a three song demo which led to their first full length album ‘**Queen To Bishop VI**’ in June 2000 under the legendary **Frank Kozik** and **Man’s Ruin Records**. The **Tummler** crew remained all original until the close of 2001. Having witnessed the fall of **Man’s Ruin**, the memories were just too painful to continue... Or, the guitar player thought living in California would be worth leaving his life’s blood. Down to two members, **Brad Buldak** and **Jay Vance** began to rebuild.

Enter **Ryan Jerzak** and **Ginchy**... Together with **Brad** and **Jay**, the foursome has smoothed the rough edges, discovered their strengths, and coalesced into a force to be reckoned with. With the guts firmly packed into a new body, **Tummler** assembled at the **Great Western Studio** to record their second full-length album “**Early Man**”, with **Matt Talbot** (of **HUM** fame) whom has produced the bands finest recorded effort to date. “**Early Man**” is comprised of first rate production, strong material, a raw arsenal of sound coming out you.

Tummler looks forward to living up to the Small Stone tradition of heavy ass rock label mates such as **Halfway to Gone**, **Puny Human**, **Five Horse Johnson**, **Fireball Ministry**, **Milligram**, and **Porn (The Men of)** to name a few. With the production of their second album complete, **Tummler** can get back to what they do best... The live show... With hundreds of shows under theirbelt, **Tummler** has shared the stage with bands such as **L7**, **Nebula**, **Honky**, **Orange Goblin**, **HTG**, **Gaza Strippers**, **Clutch**, **Nashville Pussy**, **Antiseen**, **Goatsnake**, **Fatso Jetson**, **Acid King**, **Cutthroats 9**, **Hum**, **the Hookers**, **Cuda**, **Speeddealer**, **High on Fire** and many, many more.

Tummler has endured carbon monoxide poisoning, the death of an SG, brake failures in rush hour traffic and radiator blow ups to make it across the US several times for infamous festivals such as **SXSW**, **CMJ**, **Emissions from the Monolith** and **SHOD**. See you on the road in 2003...
